

## ICD 10

ICD-10 is the 10th revision of the International Statistical Classification of Diseases and Related Health Problems, a medical classification list by the World Health Organization. It contains codes for diseases, signs and symptoms, abnormal findings, complaints, social circumstances, and external causes of injury or diseases. Work on ICD-10 began in 1983, became endorsed by the Forty-third World Health Assembly in 1990, and was first used by member states in 1994. Whilst WHO manage and publish.

The following table lists the chapter number (using [Roman numerals](#)), the code range of each chapter, and the chapter's title from the international version of the ICD-10.
